Bachelor of Technology in HSE from Anna Hazare

More about me

I am a hardworking and self-motivated professional with significant mid-level-level experience within the fields of Python, Haskell, PHP, Laravel, PostgreSQL, Redis, Apache, Docker, AWS, and API. My skills as an individual, holding a "Bachelor Degree in Technology" B.Tech - Computer, that offers exceptional skills along with a well-developed sense of analytical, investigative, creative and technical skills.

Proven track record of identifying new opportunities and achieving organizational goals

I am actively involved in learning and adopting new emerging technologies for the betterment of myself as well as the organization I am working with or will work with. Also try to keep me updated with the already adopted or learn technologies and frameworks that is what which makes me fully loaded and can be work with anyone and while all these increases my productivity.
